

Turning Cancer Awareness into Life-Saving Action

On World Cancer Day, OneStage advanced community health by supporting a focused Cancer Awareness Campaign in partnership with Saptarishi Hospital. Prioritising early detection, prevention, and timely referrals, especially for women, the initiative combined screenings, counselling, and myth busting outreach. By strengthening access to diagnostics and care pathways, OneStage reaffirmed its commitment to equitable healthcare, dignity, and informed action that saves lives.

Advancing Sustainable Leadership on a Global Stage

At the World Leaders Summit & Awards 2026 in New Delhi, OneStage's CEO Dr. Pratyush Panda spotlighted the power of CSR, systems thinking, and community led action in driving measurable sustainability outcomes. Drawing from on-ground experience, he reinforced OneStage's belief that lasting development emerges when policy, corporate intent, and community participation move forward together.

Co-Creating Pathways from Education to Employability

Through a recent feasibility assessment in Kodgal Village, Hyderabad, OneStage advanced the Educate to Empower program supported by GlobalLogic. Engaging deeply with Banjara families, the team identified strong demand for vocational and life skills. By aligning infrastructure, trainers, and community aspirations, OneStage is shaping integrated education and wellbeing pathways that enable youth to build sustainable futures.

From Emergency Response to Enduring Healthcare Access

As Aarogya Wheels concludes its emergency phase in Gurdaspur, OneStage is ensuring a responsible transition from disaster relief to long-term care. After delivering consultations, medicines, diagnostics, and psychosocial support during flood disruption, patient records and follow-ups are being integrated into public health systems. Supported by Rio Tinto India, the initiative reflects OneStage's commitment to recovery, continuity, and system-strengthening impact.

One Month. Measurable Impact. Stronger Health Access in Nuh

Within its first month in Nuh, Haryana, Aarogya Wheels has reached 1,065 individuals, connecting underserved communities to essential primary care. With over half requiring referrals to higher facilities, early screenings revealed significant unmet health needs. Supported by Evalueserve, OneStage is enabling timely diagnosis, structured referrals, and stronger healthcare continuity demonstrating the power of doorstep access.

Engineering Water Security, Strengthening Rural Futures

At Phaltan Taluka, Satara District, OneStage is translating technical precision into lasting water security. With farm ponds, desilting, contour trenches, and durable geomembrane lining underway, nearly 1,200 farming households will gain resilient access to water. Supported by AstraZeneca, the initiative is restoring time, productivity, and confidence, demonstrating OneStage's commitment to measurable, community rooted climate resilience.

Changing Conversations, Empowering Classrooms in Ajmer

Through the School Improvement Project supported by The Jansen Foundation, OneStage is transforming classrooms in Ajmer into safe spaces for honest dialogue on menstrual health and wellbeing. Endline assessments revealed more than improved knowledge: they showed confidence, empathy, and myth-free understanding. By reshaping conversations, OneStage is empowering students to lead healthier, informed futures.

Reviving Water, Restoring Community Resilience in Kherla

Through the PANI initiative with Aon, OneStage has transformed Nayabandh-Chandi Wala Pond in Kherla from a silted waterbody into a restored source of groundwater recharge and livelihood security. Guided by scientific planning and community partnership, the revival culminated in its formal handover—reinforcing OneStage's commitment to sustainable water stewardship and climate-resilient rural development.

Bringing Healthcare Closer to Women in Gujarat

Through its Mobile Health Unit, OneStage is advancing last-mile healthcare access for women in hard-to-reach regions of Gujarat. Delivering OPD services, primary diagnosis, and timely referrals at the doorstep, the initiative is reducing geographic barriers and improving health outcomes. Supported by Corteva Agriscience, this partnership reflects OneStage's commitment to equitable, community-centered care.

Building Playgrounds of Possibility in Meghalaya

OneStage proudly marked the inauguration of the Sports Infrastructure Development initiative in Tura, Meghalaya, bringing Decathlon's vision of inclusive sport to life. More than a skatepark, the space fosters confidence, discipline, and opportunity for youth. Inaugurated by Hon'ble Chief Minister Conrad K. Sangma, the project reflects OneStage's commitment to accessible, community-centered development beyond metro cities.

Rooting Sustainability Through Collective Action

At Shradhanand College, OneStage led a vibrant plantation drive engaging over 500 students, faculty, and partners in a shared climate commitment. Funded by Aon, the initiative goes beyond tree planting, fostering environmental stewardship and long-term resilience. By nurturing community ownership and sustained action, OneStage is turning local participation into lasting ecological impact.

Monitoring in Motion: Strengthening Community Healthcare in Rajasthan

Through the 2MillionWomen initiative, OneStage conducted intensive monitoring across villages in Sawai Madhopur and Dausa, strengthening screening quality, outreach effectiveness, and financial integrity. By working closely with ASHAs and engaging directly with communities, the team reinforced trust in mobile healthcare delivery. Supported by Corteva Agriscience, OneStage continues to advance accountable, community-first health systems for women.

Reviving Khandala Lake, Strengthening Climate Resilience

Through the Lake Rejuvenation Program in Khandala village, OneStage, supported by AstraZeneca India, is advancing the desilting and ecological restoration of Khandala Lake in Nagpur Rural. Beyond waterbody revival, the initiative enhances climate resilience, water security, and biodiversity. By combining scientific restoration with community partnership, OneStage is translating local action into long-term environmental sustainability and shared prosperity.

Protecting Lives Through Purposeful Action

As winter intensified across Delhi-NCR, OneStage stepped forward to safeguard vulnerable worker families through a structured winter relief initiative. With verified beneficiary mapping and dignified distribution, warmth kits are reaching those most exposed to cold stress. Supported by Altius, this effort reflects OneStage's commitment to purposeful CSR: protecting health, livelihoods, and dignity when communities need it most.
